DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed on December 22, 2006 has been entered. Claims 1, 2, 14, 15, 27 and 32 have been amended. Claims 3 and 16 have been canceled. Claim 38 have been added. Claims 1, 2, 4-15 and 17-38 are still pending in this application, with claims 1, 14, 27, 32, 37 and 38 being independent.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 37 is rejected under 35 U.S.C. 102(b) as being anticipated by Gisby (U.S. Patent No. 6,002,760).

See previous Office Action. It is noted that the limitations “wherein the user may cycle between a call only state, a call and presence state and a presence only state, while maintaining the place of the call in the order in the queue.” is interpreted as a choice of the user that he/she wants to continue holding or to hang-up or to make another call, e.g. the user can either manually make a call, manually stay on hold and wait for an available agent, or set up a call back without losing position on queue, which taught by Gisby (see column 5, lines 5-23).

Allowable Subject Matter

4. Claims 1, 2, 4-15, 17-36 and 38 are allowed.

Response to Arguments

5. Applicant's arguments filed December 22, 2006 have been fully considered but they are not persuasive. Applicant states that Gisby does not disclose "wherein the user may cycle ... order in the queue.". Examiner respectfully disagree. As stated above, the interpretation, the user manually selects either making a call, staying and waiting for an available on the queue, or hanging up without losing the place in queue, reads on the claimed limitations.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
